

Sprint Backlog - Iteration 5	https://docs.google.com/spreadsheets	Multimedia Services		Team: The First Order				
User Story	Task	Member respon	Assigned to	Effort	Priority	Type	Teamlid	Uren
Sprint planning	Create sprint plan	Ruben	Ruben	2	B	Documentation	Chris	21
As a team, we want to have a good overview of tasks that need to be done and we want to reflect on work from previous sprints to improve.	Create sprint retro	Ruben	Ruben	2	B		Christian	21
							Hung	21
							Martin	21
							Ruben	21
Product architecture	Keep architecture doc up-to-date	Hung	Hung	3	A			
As a user, I want to be able to see the big picture of the software, so I know how to implement new functionality.			Martin	2				
Pull requests	Handle pull requests	Ruben	Ruben	4	C	Code quality		
As a developer, I want my code to work correctly and I want others to know about and comment on my code.			Hung	4				
			Chris	4				
			Christian	4				
			Martin	4				
Testing	Make tests for front-end	Christian	Christian	5	A			
As a developer, I want my code to be reliable and secure. Testing has to be up at 75%.			Martin	5				
Changing cues	Create changing cues option	Christian	Christian	4	D	Features		
As a scheduler, I can easily change the position of a cue so I can change my mind.			Ruben	3				
Improve screen size								
As a scheduler, I can view the application on a large screen. This enables me to view large pieces of the score at once and to create large maps.	Make design full-screen	Ruben	Ruben	3	A			
			Chris	3				
	Make design more like an app	Ruben	Ruben	3	C			
Export	Create XML export	Martin	Martin	5	E			
As a scheduler, I can export the created script and hand it over to e.g. a camera operator.			Ruben	4				
	Create XML download button	Hung	Hung	2	E			
Project based working			Martin	1				
As a scheduler, I can load a score into the project which I can see in the application.	Create option to link maps to project	Chris	Chris	4	A			
			Christian	3				
	Create option to load scores	Chris	Chris	4				

			Christian	2			
User friendliness	Improve map user friendliness	Christian	Christian	3	B		
As a user, I want to be able to use the map more easily.							
Backend APIs	Create APIs for accessing data	Hung	Hung	4	A	Structure	
As a programmer, I want to have models and apis ready for future development.			Chris	3			
	Create APIs for editing data	Hung	Hung	4			
			Chris	3			
	Fix relations within database	Martin	Martin	4	B		
			Hung	4
